### **New Look for DCU Exam Reports**

The Division of Credit Unions (Division) is pleased to announce a new look for the safety and soundness examination reports. The new look will include:

- a revised cover page
- a table of contents
- a summary page revealing the CAMEL and composite ratings along with important highlights of the report content
- a page discussing significant elements for each of the CAMEL components
- a page containing all report requirements and recommendations
- several pages of supplemental information provided by Aires

You should start seeing the new report format on examinations begun after March 20, 2000. Please provide any comments on the new format to Mike Delimont at (360) 902-8790.
